

Pilot Status & Flight Requirements

Pacific Airways pilots maintains a status based on their flight activity or status.

Status	Description
Active	At least one (1) completed flight/PIREP in a rolling thirty (30) day period.
Inactive	No completed flights/PIREPS in the past thirty (30) days.
Suspended	No completed flights after ninety (60) days.
Removed	Removed by staff after suspended state was imposed up to (90) days.
On Leave	Request leave for a specific time period.
Retired	Pilot requested to be retired from the airline.

Any pilot within our airline can file a manual PIREP and or use our ACARS suite, once a pilot completed a flight via either of our services the data will be processed automatically, at which time the report will be added to their Logbook.

A pilot will be place **On Leave** if they do not complete at least one **(1)** flight every thirty **(30)** days.

A pilot will be **Suspended** if they do not complete at least one **(1)** flight every sixty **(60)** days.

A pilot will be **Removed** by an executive staff member after their sixty **(60)** days, this is after the staff member has tried to make contact with the pilot on **discord** or by email.

If a pilot was **Removed** their account will be deleted from the airline but their data will be preserved, if that pilot wishes to return to the airline they can contact on of our **exectutive staff** members with their case, in which time if accepted their account will be reactivated back to its original state within the airline.
