

Supported Sims

Pacific Airways supports multiple simulators, the following simulators have been tested and have been approved for use within the airline via our **ACARS** suite.

- Microsoft Flight Simulator 2020 / 24
- X-Plane 11 / 12

We however no longer support FSX, FS9 or Prepare 3D (without further testing) via our ACARS Suite.

However, because we are a 20+ year old airline, there are many FS9 / FSX planes and liveries available for download.

FS9 / FSX pilots are welcome to use these older liveries, but we will not add anything new for FS9 or earlier sims.
